Members of the public are not permitted to speak at any other time during the meeting unless invited to do so by the Chairman.*)
 - 5.2 **CITY AND COUNTY COUNCILLOR REPORTS** – To receive reports, if applicable.

6. REPRESENTATIVES' REPORTS

To receive reports by representatives on Outside Bodies.

7. TOWN AND COUNTRY PLANNING APPLICATIONS

To consider and/or ratify the following:-

7.1 THE FIRS, ENGLISHTOWN, LONGTOWN (21/0804) – Erection of proposed side extension to provide new entrance hallway, laundry room and double garage. – To consider.

7.2 LAND ADJACENT FOREST GATE, BLACKBANK, LONGTOWN (21/0617) – Erection of 1 dwelling (outline)

To ratify - This area has a very high water table and more building will increase the runoff amount of water which could cause flooding of neighbouring ground. The ground has standing water at the moment, this is in a very dry period. This could make providing adequate sewage facilities for the new build extremely difficult. Requirements for the provision of other services, e.g. mains water, electricity etc., should also be considered and whether the existing infrastructure is able to provide them. A nearby planning application at L/A Riyadh, Blackbank (17/0832) was made recently which had 13 constraints and was refused permission. The same constraints should be taken into consideration for this particular application.

7.3 LAND ADJACENT RICHARDSON HOUSE, GRETNA LOANING, MILL HILL, GRETNA (20/0586) – Creation of a lorry park up to 40 spaces including conversion of existing buildings to provide welfare facilities and storage unit; erection of commercial vehicles maintenance building and associated preparation yard; installation of 2.5m high acoustic fence (bund)

To ratify - The Parish Council stands behind its original objections to this application, in the main, that the area is absolutely not suitable for the proposed use. The road system is inadequate for the required volume and nature of the HGV vehicles with access to and from the motorway and the infrastructure and services of the surrounding area is completely unsuitable for a venture of this nature and scale. It would also be detrimental to the environment, potentially to health (increased air pollution); and light pollution is already known to reduce numbers of sensitive night-flying insects and to confuse birds' breeding and feeding patterns, contributing to a fall in numbers. Now new studies show that the bright LED lighting being installed instead of yellower sodium lights in many areas - and many homes - is catastrophically damaging to moths and other insect life and subsequently the birds, bats and other creatures that feed on them. Nature Recovery is supposed to be government policy, so this should be taken into consideration.
